First updated geographical codes used in the publications of the Cesa

Ahmet Ömer Koçak Muhabbet Kemal ¹

Abstract: First updated geographical codes used in the publications of the Cesa. *Priamus* 17 (4): 319-360.

In this paper, totally 7039 geographical codes used in the publications of the Cesa are listed. Coverage areas of the codes, their composing and functions are explained.

Keywords: Code, geography, world, fauna, bibliography, mapping.

The codes used in the Cesa publications have been privately created at the beginning of the year 2000, and the coding idea has been improved to this day. In the present paper, more than 7000 localities, regions, or states are encoded. This list is the most comprehensive one, used in the biogeographical works published up to now. In the publications of the Cesa² these codes have been widely used in the database files of the authors especially after 2000. Two years ago, the first comprehensive list of the code has been published by the authors (Koçak & Kemal, 2017). Since then, a significant number of codes was increased, but also some corrections and additions occurred. In the present paper, totally 7039 codes are given.

Coverage areas of the codes

Faunistical studies: The authors published various faunal lists of the Pterygota orders of the Old World countries at intermediate stages. Faunistical studies are collected under two major groups in the separate database files, *i.e.*, Lepidoptera, and other pterygot orders. All such publications have been based upon the codes selected in the related database files of the authors.

Bibliographical studies: Similarly, the authors published various bibliographical lists of the Pterygota orders of the Old World countries at intermediate stages. Geographic interests of such publications have been based upon the codes.

Mapping of the species of the pterygot orders: For this purpose, the same codes have been used by using special mapping programs.

By using these codes, a large numbers of the faunistical and bibliographical works have been published by the authors in the last decade. Also numerous maps have been prepared and published. Examples to such papers are listed at the end of this paper, under the References.

Composing codes and their functionalities

The codes created are for the case-sensitive programs, and composed of usually 2 - 4 alpha-numeric characters, rarely more than four. Codes of the states are also seen in the international usage. For examples, **AF** (Afghanistan), **BG** (Bulgaria), **BH** (Bahrain), **BO** (Bolivia), **BR** (Brazil),

² <http://www.cesa-tr.org/Infos.htm>

CA (Canada), **US** (United States of America), etc. For the provinces of Turkey, the numbers between 01 and 81 are used here, as they are also official codes. For examples, **01** (Adana), **02** (Adıyaman), **03** (Afyonkarahisar), **04** (Ağrı), **05** (Amasya), **06** (Ankara), etc. The district codes begin with the provincial numbers. Examples for Ankara province are as follows; **06A** (Altındağ), **06B** (Ayaş), **06C** (Bala), etc. The codes of the collecting localities within a district are also created under the same way of thinking. For example, **06Ab** (Karacaören), **06Bd** (Başbereket), **06Cb** (Beynam village), etc. Sometimes, different codes are also created for different habitats, or minor localities of the main studying place. For example, **65A** (Bahcesaray), **65Ac** (Liman), **65Ac1** (Liman village, 1900m), **65Ac2** (Liman upper height, 2200m), **65Ac3** (Liman, Spindaran (Kavaklık [=Populetum]) 2320m), etc. Here, the code **65Ac** works also as a collective/common one together with the subsequent three minor studying sites. Similarly, provincial codes of Turkey work also as a collective/common code of the related districts, the code of Turkey (**TR**) works as a collective/common code of all the provinces, districts, and the collecting sites.

Updated list of the codes used in the Cesa publications

In the following list, the codes are given alphabetically, according to their states. If available the geographical coordinates are also added.

Priamus³

ISSN 1015-8243

Priamus is the first international serial publication of the Centre for Entomological Studies Ankara, established in 1981, and appears in volumes at irregular intervals. Each volume is composed of parts. This serial is regularly and permanently archived in the recognized international site, "The Internet Archive", in accordance with the Rules of the International Code of Zoological Nomenclature (Article 8.5.3.1).

It includes larger original articles of the research workers of the Centre, regarding taxonomy, morphology, bibliography, check-list, catalogue of Insects, especially Lepidoptera, as well as papers on faunistic, ecological and distributional researches. The publication languages are English or Turkish.

Centre for Entomological Studies Ankara

(A scientific Consortium)

(co-operation of research workers for pure-scientific, not commercial purpose)

Scientific Serials: Priamus & Priamus Supplement (print and online versions) (ISSN 1015-8243)⁴, Miscellaneous Papers (print and online versions) (ISSN 1015-8235)⁵, Memoirs (print and online versions) (ISSN-8227)⁶, DVD Films⁷, Iconographia Insectorum⁸ (online), Cesa Publications on African Lepidoptera (online)⁹, Cesa News (online)¹⁰, Cesa Books (online)¹¹

Owners / Sahipleri - Editors / Yayıncılar: Prof. em Dr Ahmet Ömer Koçak (c/o Van Yüzüncü Yıl University, Van, Turkey), Asst. Prof. Dr Muhabbet Kemal Koçak (c/o Van Yüzüncü Yıl University, Van, Turkey).

Editorial Board of all Scientific Serials of the CESA / Bütün Bilimsel Yayınların Yayın Kurulu: Insecta, taxonomy, nomenclature, ecology, faunistics: Prof. Dr Ahmet Ömer Koçak (c/o Van Yüzüncü Yıl Üniversitesi, Turkey), Asst. Prof. Dr Muhabbet Kemal Koçak (Van Yüzüncü Yıl University, Turkey).

Chief referees of all Scientific Serials of the CESA: Prof. em Dr Ahmet Ömer Koçak & Asst. Prof. Dr Muhabbet Kemal Koçak: Insecta, taxonomy, nomenclature, fauna, ecology, catalogues, checklists of the Old World.

Expert referees according to the subject areas: Dr Peter Huemer (Austria) and Dr. Ole Karsholt (Denmark): Gelechioidea, and some other Microlepidoptera groups in Palaearctic (Lepidoptera). Mag. Peter Buchner (Austria): Depressariidae (Lepidoptera). Dr J. B. Heppner (U.S.A.): Microlepidoptera of Nearctic and Neotropical. Dr G. Baldizzone (Italy): Coleophoridae (Lepidoptera). Dr V. Korneyev (Ukraine): Tephritidae, Pyrgotidae, Ulidiidae (Diptera). Prof. Dr Y.G.Verves (Ukraine): Sarcophagidae (Diptera). Dr Daniel Burckhardt (Switzerland): Psyllidae (Homoptera). Prof. Dr E. Heiss (Austria): Hemiptera. Dr R. Ehrmann (Germany): Mantodea. Prof. Dr Mustafa Ünal (Bolu, Turkey): Orthoptera. Prof. Dr Hüseyin Özdikmen (Turkey): Coleoptera. Prof. Dr Suat Kiyak (Turkey): Hemiptera.

Plant taxonomy, flora and vegetation: Assoc. Prof. Dr Murat Ünal, Asst. Prof. Dr Mesut Pınar, (Yüzüncü Yıl University, Van, Turkey).

Molecular studies: Dr Sibel Kızıldağ (Van Yüzüncü Yıl University, Van, Turkey).

Editorial policy: The submitted manuscript is evaluated by the Chief Editor and Referee. In case of need, the manuscript is sent to expert referees according to the subject areas.
